Measure from the table to the top of your model's ears to see where it falls in the breakdown shown above, keeping in mind that the numbers above are just approximations. One area where you may notice that I'm incomplete is in one of a kind or very limited run models, such as those given away as prizes or auctioned off at BreyerFest. An updated version of this book would be wonderful and I hope to purchase one in the future. I really like this one as it has Mosaic on the cover. Your best bet to find current values is to look at what the same model in a similar condition is selling for on an online site like eBay or Model Horse Sales Pages. Very nice coloured pictures in it. You are welcome to copy and save the information and photos found here for your personal use. Thanks for your understanding. If you've looked and can't find your model in one size category, try the next one up or down. Stupid dolls! What was the point of their existence, if they couldn't ride? In order to identify which Breyer model you have, you'll first need to determine which scale or series category it falls into, from the 1:9 scale Traditional to the 1:64 scale Mini Whinnies. If you think you know the mold name but don't see it try running a search of the page (usually Control F). Will be sent Media Mail as it's pretty heavy. I'm glad you stopped!! There are thousands of photos here to drool over and information on every Breyer model known to exist, as well as information on Breyer buttons, tack, collectors' manuals, and their annual Just About Horses magazine. Be sure to include the model number and/or model name, if you know it--that will save me a lot of time! Photos should be emailed to me at submissions@identifyyourbreyer.com. Once you know what mold you have, figuring out what model you've got is easy! Clicking on the name of the mold (such as Adios) will take you to the page for that mold. Oh, and there's this section on How To Identify Your Breyer that you might want to check out, too! I have been collecting Breyer model horses since the early 1970s and in 2001 created "Identify Your Breyer" in order to better share this wonderful hobby with others. © 1996-2014, Amazon.com, Inc. Now we have a common interest that gives us a new bond. I received my first Breyer at the age of 4, in 1969 and immediately fell in love. Some cover creases and a few bent edges. In the past photos were frequently stolen from this website for use on eBay or other sales sites. 3. Some people try to use photos found on this site as their own, most frequently on auction websites like eBay. Please be sure to include the web address that you would like your ad to point to! Sometimes Breyer will change the shape of the mane or tail on a model, so don't rely just on that. I've seen the same model for sale on Amazon priced at \$185 and MHSP for \$40, so prices can vary widely. I kept the Breyers, though, and moved them across the USA a couple of times during my adult years. Also, this is not the issue with the bad colors! Yucky fine print stuff. Please ask any questions BEFORE bidding. Photos must have been taken or be owned by you--I can't accept photos off of eBay or other sources without permission from the owner. As should be obvious, you also may not use Identify Your Breyer photos and text to create your own identification website, app, or online game. The only problem I could find with this book are the values of models, which have changed since this book was published. Overall in very nice condition. The best photos will have a plain background rather than a natural or stable scene. This guide has been so helpful in identifying the various models produced on Breyer molds over the years. Breyer may re-use each mold many times, depending on the popularity of the individual mold, and will vary the color and other details with each release. If you have questions about any of this please contact me. 2. This is not allowed, and is wrong not only because you're using someone else's work without permission, but also, in the case of sales sites, because you are deceiving your potential buyers by showing them a picture of something other than what they're actually bidding on. The only 'toys' I wanted were Breyer models and I collected them passionately until real horses stole my time and attention away. More information on how to estimate value can be found on my Buying and Selling page. Scanned images should be at least 800 pixels wide and larger if possible. or its affiliates This is Felicia Browell's Breyer Guide - Third Edition, purple cover. Ads are placed throughout the site at my discretion and are free of charge. Bear in mind that a model's value is simply what someone else is willing to pay for it, no matter what the price guide or sales list tells you one is going for! A great deal depends on the condition of the model being sold, as well as on the popularity of that particular model and its rarity. Next you'll have to determine which mold Breyer used to create your horse. See how easy that was? After being out of the hobby for so many years, I have a lot of catching up to do and lots of models to collect. Clicking on a photo will show you that picture in larger detail if you're not sure. One thing still remains true, that this is a buyers market and second-hand dealers such as antique stores and online sellers will tend to over-value the models they are selling, so you need to research a particular model (for current prices, the Model Horse Sales Pages website is the best reference). Thank you!! This second edition will prove popular, with a gallery of over 500 colour photos, dates, value ranges, and other vital information about virtually every Breyer animal made to date, including special run models.
